- Need to go for INFY Hackathon
- Direct Interview and Offered

Infosys invites passionate developers in the Bay Area to compete with the best minds in programming and showcase their coding skills in a real-time challenge. Power Programmers are full-stack developers:

- driven by passion and an appetite for coding
- keen to achieve breakthrough innovation when solving tough challenges
- passionate about embracing open source technologies along with next-gen tech
- keen on finding the "why" rather than just the "how" of coding technologies.

Are you a Power Programmer? Go ahead and register for the *HackWithInfyHackathon*, and get set for the online coding challenge.

Note: Interested students can register their name in TnP department.
